

PALAZZO® Royal

PALAZZO® Royal

PALAZZO® Royal

The premier class

The attractive details of the PALAZZO® Royal are captivating and visually emphasise its functionality. Naturally anodised aluminium combined with a graphite grey finish emphasises the design. Its ease of use is unbeatable: the PALAZZO® Royal opens and closes with a maximum of 19 manual turns of the crank or optionally via the remote-controlled motor. This leaves the seating below undisturbed, as the shut height is higher than 70cm for all models. The innovative fastening technology ensures optimum fabric tensioning. Important: all control components and cables are integrated into the mast and frame and operated by remote control. The PALAZZO® Royal also has an automatic shutdown mode in case of overheating as well as an emergency function for rapid closing.
